UNLEASH POWER,
SPEED, FLEXIBILITY
AND CONNECTIVITY IN
YOUR OFFICE.

INTRODUCING THE NEW ERA IN OFFICE PRODUCTIVITY

The Canon Color imageRUNNER® 2880i/3380i/3380i series have arrived – A powerful multi-talented device that puts the power of full communications in your hands with Efficiency, Reliability and Simplicity.

The New Color imageRUNNER 2880i/3380i/3380i series are designed to optimize office productivity by providing a benchmark performance, exceptional value and extensive range of accessories that will enable you to select the most appropriate solution for your unique business needs.

As an intelligent digital device, it improves your network communications, produces professionally finished documents and manages your office cost control. The Color imageRUNNER 2880i/3380i/3380i series are excellent multi-function devices for your office.

TECHNOLOGY

■ APFM

APFM (Accelerated Paper Feeding Mechanism) enables feeding of paper to be performed at appropriate optimal speed at each location where paper feed jams are minimized, hence improving the ease of maintenance.

Paper Transfer Speed Controlled by Accelerated Paper Feeding Method (APFM)

■ Achieve Smart Colour Printing with Real Time ACS

With Auto-Colour Select (ACS) function, the machine automatically detects and distinguishes colour and black-and-white originals in real time, requiring no pre-scan for printing. This allows you to print mixed originals without compromising on the printing speed, & helps to save on colour toner.

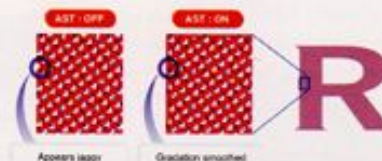

■ iR Controller

Elevates overall multifunction capabilities by synchronizing scanner, image processor and engine operation, thus realizing higher speed and efficient operation through concurrent processing. It also improves productivity by allowing you to return to work immediately after scanning to the memory.

■ Advance Smoothing Technology (AST)

Canon's new Advanced Smoothing Technology, which is an enhancement of the existing Super Smoothing Technology (SST) performing smoothing in both text and graphic object, significantly improving the print quality comparable to offset printing.

■ MEAP™

The Color imageRUNNER 2880i/3380i/3380i series incorporate Canon's MEAP (Multifunctional Embedded Application Platform). This is an in-built Java platform that gives you many more potential uses of your intelligent Color imageRUNNER 2880i/3380i/3380i series by customizing specific applications. So you're connected with colour and the future.

meap
POWERED BY

Advanced Technology For Your High Value Colour Document Needs

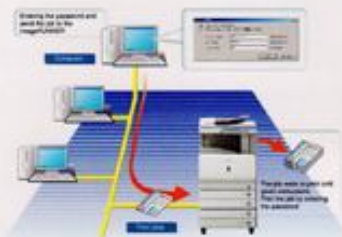

The Color imageRUNNER 2880i/3380i/3380i series have been engineered to deliver exceptional printing performance and flexibility for any office environment. Now you can manage colour efficiently and control costs effectively with Canon's leading colour print technology - all from a single intelligent multifunctional colour solution.

■ Work Faster in Colour

- To improve your workflow, Canon has advanced the document creation process. With its embedded print controller, the Color imageRUNNER 2880i/3380i series can RIP* while printing and maximize processing speed from your PC through Canon's unique Ultra Fast Rendering II (UFR) print language.
- You can increase overall productivity while reducing costs at the same time. Just simply click to print for fully-finished documents, booklets, reports and brochures. Or scan, copy, send and print information with just one intelligent multifunction.

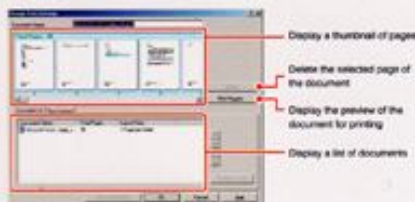

■ Encrypted Secured Print

Documents are encrypted before they are sent over the network, will only be decrypted and printed after the correct password is entered on the device. This prevents unauthorized people from access and reproduction without authorization.

■ Bring Documents Together from Different Sources

Ever have problems creating complex documents? With Canon's Page Composer you can merge the component parts of a document from different Windows applications (such as Microsoft Word™, Excel™, PowerPoint™, PDF™ etc) into a single electronic document, from the comfort of your desktop.

PageComposer Window

■ Print with Secure Watermark

Specified Security text strings (including device serial number) and background images can be embedded repeatedly into a print document as an image when any attempt is made to print, copy, scan or fax the protected document.

Original Document with Hidden Text and Background Colour

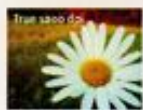

Hidden Text Appears on Copies that are made

PRINT

■ Superior Image Quality with True 1,200dpi Resolution

The documents you produce can give your company a competitive edge. With Canon's colour print quality ensured by the embedded print controller, you'll set presentation standards that others can only hope to follow.

■ Ease of Managing Assets, Controlling Distribution and Tracking Document

The new barcode printing feature enables automated and error-free barcode printing. It allows you to print machine-readable barcodes on document.

*Check with your local Canon office or authorised Canon Dealer for availability

■ Web Browsing & Printing

Web Access Printing represents the next step in the evolution of document printing. The Internet or corporate intranets can be easily accessed from the device's colour touch panel. The optional Web Access function allows you to print Web Access or PDF files without having the need to access to a computer.

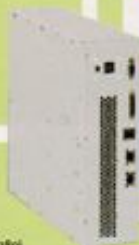

Powerful Imaging

Canon offers high performance print controller option*- Color Network Printer Unit-J1 that is developed especially for Color imageRUNNER C3380 model, bringing a higher level of productivity and exceptional colour image quality for both corporate and professional colour intensive multi-user environment.

Deliver Power, Performance, Unmatched Colour Output and Superior Workflow Management

A high-performance embedded controller is designed to handle color-intensive multi-user environments. Featuring a dedicated Intel®Celeron® M1.2GHz processor, Color Network Printer Unit-J1 produces accurate consistent colour, improves colour matching, genuine Adobe Postscript 3 and PCL 5c emulation.

*It cannot be attached on Color imageRUNNER 2280/3380

■ Scan-Once-Print-Many

Fully leverage the inherent digital features of the device by making copies from the images stored in the memory, resulting in reduced scanner wear and tear. The device also supports Copy Reservation up to 10 jobs which means documents are scanned and queued while another job is printing.

■ Job Done Notification

The device will send user an email notification once copy or send job is completed, allowing one to attend to other matters.

Scan-Once-Print-Many & Job Done Notification

■ Job Build

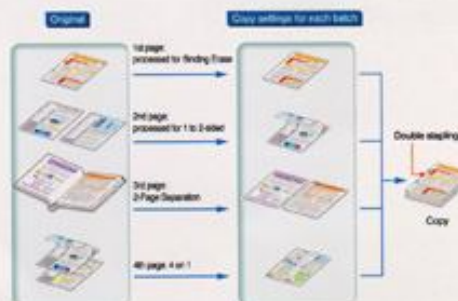

Digitally consolidate pages scanned in multiple batches through either the document feeder or the platen glass, offering versatile document building capabilities.

■ Job Block Combination

Further empower you to scan multiple batches of originals with different copy settings and copy them as one document at a breeze.

Additional and special settings such as finishing and page numbering can be specified across the entire copy job in advance, delivering professional and business-like output customized to your preferences without a sweat.

■ Greatly Reduced Operation

A large clear colour touch LCD panel serves as a data access terminal to call up a full range of operations, featuring user-friendly menu trees for easy selection.

An option to switch to Express Copy screen allows you to program jobs in fewer steps, reducing the setup time for smoother operation.

Versatile Copying Capabilities

Cutting Edge Image Processing Technology with Uncompromising
Business Performance

COPY /
MAIL BOX

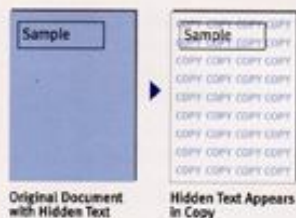

■ Booklet Creation

Simply create professional quality paginated booklets, multi-paged pamphlets, catalogues and newsletters with sophisticated finishing features in-house, eliminating the need for outsourcing and manually paginating each page.

■ Secure Watermark

Institutions like banks and legal firms where most of the information is private and confidential are continuously looking for ways to protect such information. One way to accomplish this is to utilize the Secure Watermark feature to mark the document to prevent unauthorized copying.

■ Manage Data Efficiently with Mail Boxes

Mail Boxes provide an electronic filing solution to your document storage problems and at the same time, it serves as a communication hub for various teams to merge their contribution effortlessly.

■ Combine Speed and Security

Routing colour documents electronically speeds up administrative processes and avoids endless printouts. Use the Mailbox feature to store documents securely before printing, protecting all your important company information.

■ Link People with Colour

- Sending colour documents to multiple destinations in a single operation is simple. Just scan in originals at the MFP and transmit them electronically wherever you want to (eg: email addresses, databases, company servers or faxes) and in any format you choose (eg: PDF, TIFF, MTIFF or JPEG). This eliminates the cost of distributing hard copy documents - saving time, money and space.
- For sending with speed and accuracy, use the LDAP feature to access email addresses directly from the company server through the machine.

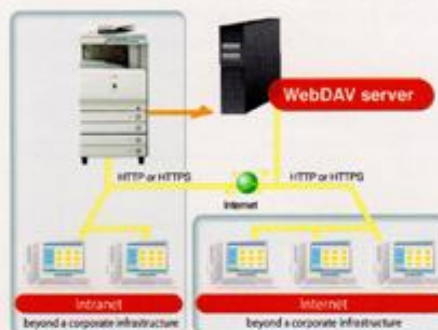

■ Searchable PDF to Reduce Search Time

Simply process documents through powerful PDF creation engine and perform full-text search or transfer to a word processing application for data manipulation with ease.

■ Web-Based Document Collaboration

Colour Universal Send supports the Web-based Distributed Authoring and Versioning (WebDAV) protocol, enabling you to send documents securely to a shared storage service. You can easily access to stored documents even from a mobile environment or outside of intranet.

■ PDF High Compression to Distribute Colour Data Quickly and Efficiently

A major challenge of colour-scanned document is its file size. The file size may cause high network traffic and large colour image can incur high storage cost. With Canon's proprietary PDF High Compression function, user can compress the capacity of colour image to 1/10th the traditional size. Thus large volume colour data can be easily emailed and handled over a network.

File Size Comparison

Original: A4-Sized Hard Copy (Colour Graphics with Text)

Superior Communication

Digitalize paper documents and send them through email, Internet fax or file servers with Color Universal Send

UNIVERSAL SEND

Trace and Smooth PDF to Create Elements for other Documents

With Canon's exclusive Trace and Smooth PDF feature, text in PDF files can be converted to outlines for sharper edges and increased readability. The outline data can be manipulated in Adobe Illustrator® to create elements for other documents.

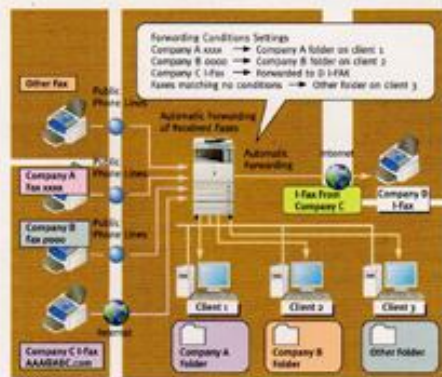

Job Forwarding

With Job Forwarding, you're never out of reach of important information and providing a solution to document of large file size.

Incoming faxes can automatically route to other devices, destinations or destinations or database for remote reception or archiving purposes.

URL Sending automatically routes incoming documents as a URL via email to other destinations.

Secure Digital Documents

Prevent impersonation, unauthorized alteration or interception of your documents with PDF Security Feature.

With **Digital Device Signature** mode, recipients can be assured of the originating device of documents.

Protect the contents of your documents with **Encrypted PDF feature*** by simply securing them with a password to restrict unauthorized access, editing and printing.

The **Digital User Signature** option enables verification of your identity to recipients by adding your digital certificate to your documents.

FAX

■ High Volume Fax Capability

The Color imageRUNNER 2880i/3380i/3380i series support the option to add a single or multi-line G3 fax module to further extend the capabilities of Universal Send.

Canon's Super G3 Fax Technology offers a faster transaction speed of 33.6kbps than the conventional G3 (14.4kbps) dramatically reduces the transaction and telephone line charges while increasing your work productivity and efficiency with less amount of time spent on faxing.

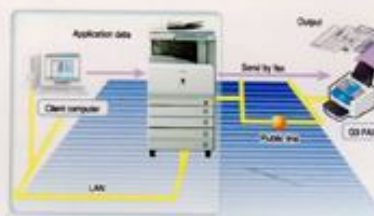

■ Multi-Line Fax Capability

Doubling your fax capacity with minimal investment when you install the Multi-Line Fax Board on Color imageRUNNER 2880i/3380i/3380i series. You may designate one line for outgoing fax calls and dedicate the second line for incoming faxes.

■ PC Faxes

Go paperless faxing from PC fax without the need to print on paper, cutting costs by efficiently reducing paper usage.

■ Memory Receive (RX) Inbox and Confidential Fax Inbox

Additional Mail Box features include the ability to store received fax or Internet fax documents in a Memory RX Inbox or a Confidential Fax Inbox. From this location, the document can be previewed before printing or deleting it.

Security and Authentication

Protect your business from any possible information leakages. The latest Colour imageRUNNER 2880i/3380i/3380i series are designed to deliver a full-range of business security solutions. These solutions will give you total peace of mind knowing your confidential documents are protected.

SECURITY

■ Hard Disk Overwrite Security Delivers Added Protection

Completely erase traces of previously stored data in the hard disk in a single step with the optional HDD Erase Kit **permanently**. This prevents information leakage from the hard disk.

■ Password & Authentication

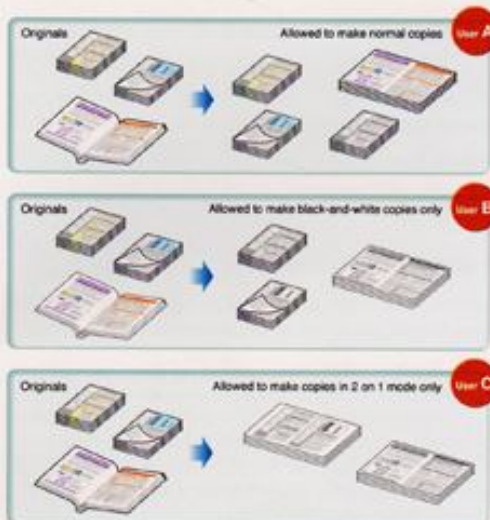

To maintain control over IT environments, administrators can restrict printing, copying, faxing, or e-mailing documents to authenticate you. These restrictions aid in maintaining a tight information security environment.

- The three authentication levels are as follows: Department ID Mode, SDL (Simple Device Log-In), and SSO (Single Sign-On).
- SDL and SSO are more secure as they work with network-based authentication servers to grant access.

■ Restriction of Access to Device Functions

Access Management System allows administrator to manage control access by login authentication but also to specific device functions each user can perform, such as forced duplexing and inhibiting colour copying.

■ Prevent Data Leakages & Safe-Guard Your Documents

With HDD Data Encryption, data that are stored in the machine is encrypted. Fret no more as you are assured that your documents are well secured and protected in the hard disk.

MANAGEMENT

Accessibility

Canon offers solutions to maximize accessibilities and enhance user experiences through high technology system.

■ Be Cost Effective in Colour

Every workgroup manager wants to achieve more results with minimal costs. With Canon's advanced colour technology and document accounting features, you get the best of both worlds.

- Use the Department ID Management feature to decide who uses colour and how often.

■ Make Complex Tasks Easy

You don't need technical expertise to get the best out of the Colour imageRUNNER 2880i/3380i/3380i series.

- The intuitive User Interface and printer driver reduce sophisticated functions to simple steps on the large touch panel display screen.
- The Remote User Interface, with its built-in web browser gives you complete control of machine status and settings from their connected desktops.
- Inside the device, the internal layout has been newly designed with the print drums and developing units arranged horizontally for easier user access.

■ Manage Multiple Machines Together with Device Information Delivery

Setting up one of devices as the host machine to deliver the same information to the other devices connected over the network. This allows centralized management of multiple devices, thus saving the time & effort of registering information for all.

■ Improves Disability Support

- Remote Operator

Provide the capability to operate the device from any networked computer or laptop by emulating the device's control panel. This allows users in wheel chairs to program the system in a seated position.

- Voice Guidance

This option provides visual impairment users audible job confirmation through voice synthesis technology during the copy process.

Improve your personal workspace with Canon's imageWARE Office Suites to capture, manage, distribute, and publish your data.*

COST AND DOCUMENT MANAGEMENT

■ Capture Important Information

Canon's imageWARE Scan Manager can convert high volumes of documents into digital data quickly and easily. Important details on the documents can be captured and data recognition improves the accuracy and usefulness of digitized, computer-based information. As a result, manual labour costs related to scanning and document indexing can be greatly reduced.

■ Document Creation Made Simple

High quality and professional-looking documents add more influence to important meetings, presentations or customer proposals. To save time and money, simply use Canon's imageWARE Publishing Manager for a fast, affordable in-house colour publishing system. Now you can create professional-quality booklets, catalogues, brochures, and more, with sophisticated finishing features right from your desktop.

■ Physical Paper Reduction and Storage

Documents, either in paper or electronic form, make up the information base of most companies. With Canon's imageWARE Document Manager, you can create a central information database repository in your workgroup or entire enterprise. This software is designed to reduce or replace traditional hard-copy document storage methods in general office environments, supporting applications for retrieval, archival, and records management.

Using your Canon imageRUNNER, paper documents can be saved directly into imageWARE Document Manager, with a single touch of a button. And faxes can also be sent and stored into different folders based on the incoming fax number. This can be achieved with the smart solution, imageWARE Document Manager Client for MEAP.

■ Cost Efficient Monitoring

Imagine how much more efficient your organization would run if you could easily monitor the usage of a multifunctional device. imageWARE Accounting Manager for MEAP is a simple job accounting application which keeps detailed records of all printing, copying, scanning and faxing activities handled by Canon MEAP enabled imageRUNNER. In addition, the application can break down information based on user names, giving you a precise indication of each employee's machine usage.

*All imageWARE applications are sold separately.

PAPER HANDLING & ACCESSORIES

■ Advanced Document Handling and Finishing Support.

The Color imageRUNNER 2880i/3380i/3380i series offer considerable flexibility to meet and exceed your toughest demands. Canon technology helps you work smarter.

■ Uninterrupted Operation in a Demanding Environment

The system can accommodate up to 4,950 sheets of paper capacity with support of large paper sizes, heavy paperweights and a wide variety of specialty stocks.

Auto paper selection and auto drawers switching increase the productivity of the device by automatically selecting the size of the paper and enabling the Color imageRUNNER 2880i/3380i/3380i series to continue copying or printing even after the primary paper source has been depleted.

■ Finish Brilliantly in Colour

Why pay to outsource document creation when the finishing options on the Color imageRUNNER 2880i/3380i/3380i series provide you to do all on in-house copiers and printers at reduced cost?

- Mix black and white with colour for the maximum impact
- Choose from saddle stitching or booklet making for polished professional documents.
- Use Canon's finishing technology to give your workgroup a head start over the competition for presentation.

■ Stable and High Speed Paper Feed

APFM (Accelerated Paper Feeding Mechanism) enables feeding of paper to be performed at appropriate optimal speed at each location where paper feed jams is minimized.

Paper Transfer Speed Controlled by Accelerated Paper Feeding Method (APFM)

SPECIFICATIONS Color imageRUNNER 2880i/3380i/3380i

Main Unit

Type:	Color Digital Multifunction Imaging System	
Imaging System:	Laser Dry Electrostatic Transfer System	
Image Server Memory:	Standard 1GB RAM, Maximum 1.5GB RAM	
Hard Disk Drive:	80GB	
Network Interface Connections:	10 Base-T/100 Base-TX (RJ-45)	
First-Copy Time:	B/W	Colour
	5.9 sec (A4)	8.9 sec (A4)
Warm-Up Time:	IR C3380	IR C2880i/3380i
	38 seconds (A4)	30 seconds (A4)
Copy Speed:	IR C2880i	IR C3380/3380i
	B/W	Colour
	28 ppm (A4)	33 ppm (A4)
	26 ppm (A4)	30 ppm (A4)
Max. Mail Boxes Supported:	100 User Inboxes, 1 Memory Fax Inbox, 50 Confidential Fax Inboxes	
Max. Copy Reservation:	30	
Resolution:		
Scan	600 dpi x 600 dpi	
Copy	1200 (Equivalent) dpi x 600 dpi	
Print	True 1200 dpi x 1200 dpi	
Halftone:	256 Gradations (Continuous - Toner)	
Paper Sources:		
Standard	Dual 550-Sheets Paper Cassettes, 50-Sheets Stack Bypass	
Optional	Dual 550-Sheets Paper Cassettes, 2,700-Sheets Paper Deck	
Acceptable Paper Weights:		
Cassettes:	64 - 96 gsm	
Stack Bypass:	64 - 220 gsm	
Multiple Copies:	1 - 999	
Feeder capacity:	50 Sheets	
Dimensions (W x D x H):	565 mm x 755 mm x 750 mm	
Weight:	124.5 kg (including ADF)	
Power Supply:	220-240V AC, 50/60Hz	
Power Consumption:	1.5kW (Max)	
Toner (Estimated Yield):	5% image coverage	
	B/W	Colour
	26,000 pages (A4)	14,000 pages (A4)
Drum Yield:		
	B/W	Colour
	58,000 sheets (A4)	55,000 sheets (A4)
UFR II Print Kit (Standard) ¹ :	UFR II	
PDL Support:	Microsoft® Windows 2000/XP/Server 2003, Citrix Metaframe® Macintosh® OS 10.2.8 & above	
Network OS:		

Optional Accessories

Duplicating Automatic Document Feeder-L1	
Acceptable Originals:	A3 to A3
Capacity:	50 sheets (A4/B5pt)
Paper Weights:	64 - 128 gsm
Colour Universal Send Kit-Us²	
Address Book Capacity:	1,100 (Includes 200 One-Touch Buttons)
Sending Methods:	E-mail, i-Fax, S/MIME, File Server (FTP, iPP, WebDAV), User Inbox
Data Format:	File, E-mail
	TIFF, JPEG, PDF, PDF (iCompact*), PDF (Trace & Smooth)*, PDF (OCR)*, Encrypted PDF**, Digital Signature PDF (Device*, User**)
Super G3 Fax Board-W1/ Super G3 Multi-Line Fax Board-J1	
Applicable Line:	Public Switched Telephone Network (PSTN)
Connection Lines:	
Super G3 Fax Board-W1	One Line
Super G3 Multi-Line Fax Board-J1	Two Lines
PCL/PS Printer Kit-Q1	
CPU:	Canon Dual Custom Processor (Shared)
Memory:	1.5 GB RAM (Required)
Hard Disk Drive:	80GB (Shared)
Network OS:	Windows®/Windows®/Me/XP/Server 2003, Citrix Metaframe® Macintosh® OS 10.2.8 & above

Colour Network Printer Unit-j1³

Connectable Device:	Color imageRUNNER C3380
CPU:	Celeron M 1.2GHz
System:	System 86
Memory:	256MB (Standard) / 512 MB (Max.)
Hard Disk Drive:	80GB
Interfaces (to LAN):	10/100/1000Base-T (RJ-45)
Supported PDL:	Adobe® PostScript® 3, PCL 5c
Utility Software:	Remote Scan Command Workstation for Mac, Command Workstation for Windows
EFI Options:	256 MB RAM, Hot Folders v2.0, Impose v2.6, Secure Erase v1.0
Cassette Feeding Unit-Y1	
Paper Sizes:	A3, A4, A4R, A5R
Paper Drawers Capacity:	Dual Front-loading Cassettes, 550-Sheets each (A4, 80 gsm)
Paper Deck-Z1	
Paper Size:	A4
Paper Deck Capacity:	2,700 Sheets (A4, 80 gsm)
Inner 2-Way Tray-D1	
Number of Trays:	2 Trays
Tray Capacity:	
Lower Output Tray:	250 Sheets (A4), 300 Sheets (Other sizes)
Upper Output Tray:	300 Sheets (A4/B5), 50 Sheets (Other sizes)
Acceptable Paper Sizes:	A3 to A3
Attachable Accessories:	Copy Tray-J1
Finisher-Z1	
Number of Trays:	1 Tray
Tray Capacity:	
Non-collate, collate	500 Sheets (A4/B5/A5R)
Group Mode:	500 Sheets / 30 Sets (A4)
Staple Mode:	Corner, Double Stapling
Finisher-Y1/ Saddle Finisher-Y2	
Number of Trays:	2 Trays
Tray Capacity:	
Non-collate, Collate	1,000 Sheets (A4, A5, A5R)
Group Mode:	1,000 Sheets / 30 Sets (A4)
Staple Mode:	50 Sheets (A4, 80 gsm)
Max. Stapling Capacity:	
Staple Mode: Corner, Double	
Saddle-itching⁴	
Acceptable Paper Sizes:	A3 to A3
Staple Mode:	1,000 Sheets / 30 Sets (A4)
Saddle Stitch Capacity/Set:	15 Sheets
Folding:	V-fold
Attached Accessories:	Puncher Unit-L1
Puncher Unit-L1⁵	
Paper Size:	A3, A4, A4R
Punch Type:	2 Holes
Acceptable Paper Weights:	64 gsm to 220 gsm
Puncher Waste Tray Capacity:	Approx. after 10,000 sheets

Additional Optional Accessories

Encrypted Print Software-L1 ⁶	
Barcode Printing Kit-A1 ⁶	
Web Access Software-E1	
Universal Send PDF Advance Feature Set-A1 ⁷	
Universal Send PDF Security Feature Set-A1 ⁷	
Digital User Signature PDF Kit-A1 ⁸	
Secure Watermark-A1 ⁹	
HDD Encrypt Kit-B1	
Secure Erase V1.0	
IR 512MB Expansion RAM-C1	
Voice Guidance Kit-B1	
Voice Operation Kit-A2	
Remote Operator's Software Kit-A2	
Document Tray-I1	
Copy Tray-I1	
Buffer Pass Unit-E2	
Access Management Kit-A3	
Platen Cover Type H	

¹ Standard on IR-C3380/3380i

² Standard on IR-C2880i/3380i, optional on IR-C3380

³ When configure on IR-C2880i/3380i, requires Universal Send PDF Advance Feature Set-A1

⁴ When configure on IR-C2880i/3380i, requires Universal Send PDF Security Feature Set-A1

⁵ Requires Digital User Signature Kit-A1

⁶ Requires IR 512MB Expansion RAM-C1

⁷ Available with Saddle Finisher-Y1 only

⁸ Requires either Finisher or Saddle Finisher-Y1

⁹ Requires PDL/PS Printer Kit-Q1

¹⁰ For IR-C3380, requires Colour Universal Send Kit-Us
